ARRIVAL

Information about public transport and connection search

All the relevant information about Prague public transport and connection search can be found directly on the home page of Prague Public Transport Company: <https://www.dpp.cz/en>

Prague has one of the best public transportation systems in Europe. It is efficient and highly integrated. Prague has a compact city centre; main historical sights are within walking distance. Thus travel around the city centre on foot or by public transport is highly recommended.

Public transport tickets are valid on metro, tram, bus, train etc. Ticket vending machines intended for the purchase of individual tickets usually accept only coins. You can pay by card in ticket machines at the metro station or in the trams. **There is also a ticket vending machine in the Mama Shelter Hotel lobby – on the right side of the entrance.**
